Example of Bonus Calculation

A client deposits 200 USD:

- Balance: 200 USD
- Credit: 200 USD
- Total equity: 400 USD

After generating 100 USD in profit (equity increases to 500 USD) and meeting the minimum 3-minute trade duration, the client requests a 100 USD withdrawal:

- Remaining balance: 400 USD
- Credit: 200 USD
- Equity: 400 USD
- Latest Equity upon withdrawal request: 200 USD

Upon withdrawal approval, the entire bonus credit (200 USD) will be removed. No additional bonus will be reissued for this account.
